

**INVIVOSCIENCES, INC.** 510 Charmany Drive Suite 265 Madison, WI 53719  
608-713-0149

## Open position:

Company: InvivoSciences, Inc. ([www.invivosciences.com](http://www.invivosciences.com))  
Location: US-WI-WU Madison Research Park  
Employee Type: Full-Time Employee  
Industry: Biotechnology  
Job Type: Bioengineer  
Education: Bachelor or Master Degree  
Experience: 0-1 Years  
Required Travel: Negligible

The Biotech Company, InvivoSciences, Inc., is seeking a Bioengineer and Research Technologist. In this position you will have an opportunity to:

- Conduct research and development of novel drug-discovery methods using human engineered tissues,
- Design and improve a prototype of automated high-throughput device,
- Test and optimize engineered tissues mimicking patient-specific disease models in cancer, heart failure, and neuromuscular diseases.

Ideal candidate will have a recent MS or BS in mechanical engineering, biomedical engineering, electrical engineering or related field. Knowledge and background of biological sciences are desired. A motivated individual willing to learn these areas will be considered. Experience with Matlab is also desired. We are seeking highly motivated individuals interested in joining an innovative team that is developing and providing unique solutions to drug discovery industry. Candidates should possess a strong background in science, a talent for coordinating multi-tasks and good communication skills.

The position is available immediately. For questions and/or information regarding the position, please contact Dr. Wakatsuki ([tetsuro@invivosciences.com](mailto:tetsuro@invivosciences.com)). To apply for a position, please include a brief cover letter referring to this posting.
